

UNCG Undergraduate Research, Scholarship and Creativity Office
Undergraduate Research and Creativity Awards
Summer 2024

Student	Faculty Mentor	Department	Project Title
Oluwafeyisayomi Bada	Nicholas Oberlies	Chemistry and Biochemistry	Laboratory Scale-Up of Fungal Secondary Metabolite, Wheldone Via Co-Culturing
Beth Campbell	Heather Holian	School of Art	Envisioning the Virgin's Assumption in Renaissance Florence: Reflections of Religious and Private Patronage
Aminah Coppage	Leah Sobsey	School of Art	CVPA Pollinator Garden
Emi Curia	Levi Baker-Russell	Psychology	Developing a New Measure to Investigate Sexual Consent
Ethan Divon	Aisha Dad-Van Veldhuizen	Classical Studies	Expanding Classics: Comparative World Mythology and its Reception in Gaming
Nolan Garci	Mitchell Croatt	Chemistry and Biochemistry	Regioselectivity of the Claisen Rearrangement Reaction: Research on Tethered Amines
Jamie Gross	Aisha Dad-Van Veldhuizen	Classical Studies	Expanding Classics: Comparative World Mythology and its Reception in Gaming
Emily Guin	Mitchell Croatt	Chemistry and Biochemistry	Use of a Regioselective Claisen Rearrangement: Total Synthesis of Cycloepoxydon Dimer
Sophy Mejia	Eric Josephs	Nanoscience	Analyzing Auxeticity of 3D-printed Mechanical Metamaterials

UNCG Undergraduate Research, Scholarship and Creativity Office
Undergraduate Research and Creativity Awards
Summer 2024

Student	Faculty Mentor	Department	Project Title
Bridget Page	Richard Hronek	Languages, Literatures, and Cultures	Bridging Art and Language: An Integrative Approach to Language Learning with Art from UNCG's Weatherspoon Art Museum
Katherine Smith	Leah Sobsey	School of Art	CVPA Pollinator Garden
Erin Spivey	Kevin Wilcox	Biology	Assessing The Effects of Drought and Heat Waves on Root Birth, Growth, and Death in Longleaf Pine Savanna
Daniel Springer	Jonathan Chekan	Chemistry and Biochemistry	Discovery of New Peptide Modification Enzymes in Natural Product Biosynthesis
Jenna Stone	Sally Koerner	Biology	The Effect of Rhizobia Strain on Growth Rate and Nitrogen Fixation of Legume Plants Common to the Understory of Longleaf Pine Savanna
Emma Woodle	Sally Koerner	Biology	The Influence of Grazing on Native Tallgrass Prairie Insect Community Response to Nitrogen Deposition
